SEPULVEDA PTA HEARS DR. POSNER

"Torrance has added on the average of one new school every five months since 1949," according to Dr. Albert N. Posner, assistant department superintendent of the Torrance Unified School district. He discussed the growth of the Torrance school system at a Sepulveda Elementary school PTA meeting January 17.

Dr. Posner measured the growth during the past 10 years by pointing out the number of volumes contained in the library. The present total of 100,000 is expected to double within the next five years, he said. He also marked the increase in the number of cafeterias and school buses.

"The hue and cry arose in 1947 in Torrance for its own school district and a vote was cast to unify the school," he said. "During the short period of July 1-September 10, 1947, a school system was organized. The 'open door' policy to parents was emphasized to bring the schools closer to home and people."

Dr. Posner described the formation of the Torrance Educational Advisory committee composed of representatives of labor, industry, PTA, service clubs etc. The Torrance Schools bulletin is published by this committee which meets monthly.

"The apparent success of the good schools is attributed to the attitude of the men and women of the city," said Dr. Posner. Entertainment was provided by David Hinkel, accordion soloists.
